### Swann-Day Mill Burned.

About sundown Monday a destructive blaze was discovered in Swann-Day's big saw mill in this city. The fire was in such headway that in a very short time the mill was burned to the ground, and what was a few minutes before the largest saw mill in the State lay in ashes. There was a strong wind blowing from the East, and this only saved the large stock of lumber adjoining and the planing mill. The large streams of water poured on the huge flames, amounted to nothing.

The original cost of the mill was \$200,000.00, so the loss is considerable. The exact cause of the fire is yet to learn.

A new mill will be built at once, but the new one will not be so extensive as the one just burned.

### Prosperous Farmers.

The farmers of Kentucky are in high glee over the general condition of affairs. Nearly all the tobacco has been sold and delivered at good prices, an average of about eight cents for the entire crop of about 300,000,000 pounds. Wheat is looking better than for several years at this sea-

son. It has attained strong root and is growing nicely. Two-thirds of the corn ground has been broken up, prepared for planting. An increased acreage of tobacco will be put out. The hemp-breaking machine is at work in the fields. It is a Chicago patent and is doing excellent work. All of the hemp crop has been disposed of at from \$5.15 to \$5.40 per 112 pounds. Nearly all the lambs have been engaged for June delivery at six cents, and a considerable quantity of wool has been disposed of at thirty cents per pound. Some farmers are refusing to sell at that figure, believing the price will advance to forty cents. The mule market is very high, ranging from \$115 to \$250 per head. The chicken industry is taking a hold on the farmers, and a number of new poultry farms are being started. The past year has been in fact a very successful one to all classes.

### Winchester Court.

The largest crowd in a long time was here Monday, but not much business done. At Scobee's Stock Yards several hundred cattle were on hand, but not a good animal among them all. Nothing sold higher than four cents and probably none so high. Among the sales were the following:

Conner & Horton sold 2 heifers, 780 lbs., each for \$60; a heifer cow and calf for \$27.50 and three heifers, 600 lbs., for \$38.

Jeff Johnson bought five heifers 500 lbs., for \$13 each.

George W. Lewis bought 41 heifers, 410 lbs., at \$3.10.

J. W. Pace bought 14 heifers, 450 lbs., at 3.25.

Hodge Gay bought 14 heifers, 600 lbs., at \$3.25.

R. T. G. Bush sold 9 steers, 750 lbs., at \$3.90 and one weighing 815 lbs., at \$3.50.

Ben E. Wills sold 3 cows and calves at \$28, \$38 and \$40.00.

R. D. Gordon bought 12 steers, weight 400 lbs., at \$11.50 each.

Halsey & Wireman sold 30 heifers, 400 lbs., at \$13 each; 16, 500 lbs., at \$16 each, and a bunch of yearling steers, 400 lbs., at \$15 each.—Winchester Democrat.

### Injured by Fall.

Mrs. Manerva Wood, wife of James Wood, living on Snow creek this county, some days ago slipped and fell somewhere about the house and injured her right hip so she has since been unable to walk a step. At first the fall was not considered at all serious, and the family thought she must be paralyzed but she can work her toes and move her foot, so it is now conceded that the injury resulted altogether from the fall. Mrs. Wood is an aged lady, which makes the trouble all the worse, but it is hoped that no serious results will follow.

### Legislature Adjourns.

The Legislature which was called in extra session, for the purpose of imposing a tax on rectifiers of whiskey has adjourned after passing a tax of  $1\frac{1}{4}$  cents on the gallon. This is a compromise measure, the House holding out for  $1\frac{1}{4}$  cents while the Senate was

for a tax of only one cent per gallon.

### Given Five Years.

Matt Tracy was tried in the Circuit Court last week for the killing of Jim Willie Ware in this city last summer on circus day, and sentenced to the penitentiary for five years. We learn that Tracy will accept the sentence and make no appeal.

### Gone to Illinois.

John McPherson left here Monday for Piasa, Ill. to spend the summer and probably make his future home. Mr. McPherson is the father of M. B. McPherson of this city, and who a few weeks since lost his wife. He has sold his farm, broke up housekeeping, and will live with relatives in the future.

### Remedy against Potato Bugs.

It is claimed that if two or three flaxseed are planted in each hill of potatoes, potato bugs will not bother the vines at all. The above may or may not be true, but as the expense will not be very heavy in trying the experiment it will be worth while for potato raisers to try the next planting season, and if the flax seed does not accomplish what it is supposed to do to the bugs, they can go back to the old remedy and feed them on paris green.

### Why We are Right Handed.

Why do we use the right hand in preference to the left?

An anatomist, who has studied the question very closely, says that it is largely a matter of heredity. The early races of men must have used the right hand in fighting, reserving the left to cover the left side of the body, where wounds—as their experience showed them—were the more dangerous. This more frequent use of the right hand would react upon the brain, bringing about a special development of that part which controls the right hand.—Ex.

### Mr. Henry Ill Again.

John W. Henry, our photographer, who has been a sufferer from rheumatism more or less for the past six years, is down again at the home of his daughter, Mrs. C. C. Eaton. Mr. Henry has been much better with this trouble this winter than usual, and until about three weeks ago, he thought probably he would stay up this time. The numerous

friends of Mr. Henry will regret to learn of his relapse.

### Notice to Trustees.

Now is the time to subscribe for our combination of five papers for 75 cents. This offer will not last much longer.

## SPOUT SPRING.

Mr. and Mrs. J. H. Dawson spent a few days this week with relatives near Winchester.

We regret to announce that Mrs. Veanna Curtis is quite sick at her home near this place.

Jeff Douglas is moving from Wm. E. Heflin's farm near this place to Levee, Montgomery county.

Algin Burgher, of Locknane, visited his grandmother, Mrs. Elizabeth Burgher, and other relatives near here.

Miss Ruth McKinney, after several days visit to her sister, Mrs. Wm. E. Heflin near here, returned Monday to her home near Winchester.

J. E. Burgher has bought the land adjoining Salem meeting house belonging to the McKinney heirs and intends improving the place later on.

J. H. Dawson, a former resident and merchant at this place, has moved to the Allen Osborne farm near here, recently purchased by his brother, John W. Dawson, of Heidelberg, Lee county. Mr. Dawson is a good citizen, and we are glad to have him with us again.

At Kirksville, Madison county the College building, Opera house and dwelling house, all the property of Charles Shepherd, formerly of this county, was burned to the ground entailing a loss of \$10,000 00 with \$2,500 00 insurance. Mr. Shepherd married Miss Kate Wiseman, a daughter of H. B. Wiseman living near Sams, this county. He has numerous friends here who greatly sympathize with him in his heavy loss.

Kirksville College was founded by Prof. Milton Elliott, also of Estill county, about 1860, and has been one of the best known and oldest seats of learning in the State. Former Gov. Francis, of Missouri, received his early education at this favorite school.

An old citizen asks us to mention his method of guarding against the possible explosion of kerosene lamps, says an exchange. It is very simple—merely the depositing of about an inch of common salt in the bowl of the lamp. He has been using the precaution for forty-five years and says that during that time the oil often took fire, but never exploded.

Of twenty-five packages of maple syrup, each labeled that it was pure, examined by the state chemist of Indiana, only one was found to be pure. Not only were they impure, but they contained only about one fourth of the sweet they should have even if made from ordinary sugar. Why did the makers do this? To make profits of course. No profits, no adulteration. If they are not obtaining money under false pretenses, what does constitute that crime? Of course it is, everybody knows that, but these fellows are defrauding by the wholesale, and must not be molested. Wait until some half-fed rascal gets a few dollars, under the same process, and we'll hoss him up, send him to the pen and by the time we let him loose he'll know to defraud the next time by the millions in order to escape punishment.

A condemned negro was lynched this week at Chattanooga because the supreme court ordered a stay of execution in his case and now the north will howl. All of which makes all the more pointed the wit of the following squib clipped recently from a western paper:

"ELIZA"

If you see a negro girl hopping from one cake of ice to another and crossing the Ohio river from north to south, her address was formerly Springfield, Ohio.—Middleborough News.

When you pick up a New York paper it is full of accounts of local grafts and crimes; if you pick up a San Francisco paper in that you will find a report of the same conditions on the Pacific slope; and it is true of Pittsburgh, St. Louis, New Orleans, Chicago, Louisville and every other of the six hundred cities and larger towns. Even ninety-nine out of one hundred county papers have the same story to tell. What are we coming to?

Officials of the N. Y. Life are to return \$150,000 which was contributed to the Republican National Committee. If this keeps up, Chairman Cortelyou and Treasurer Bliss, will have to admit that they got it. Though they needn't say where as we know already.

Notwithstanding the startling exposures of the insurance, investigations, it is far from certain that the N. Y. legislature will afford the remedy of effective legislation. A persistent lobby is working against legislative reform.

A negro has been lynched in Louisiana for stealing a cow. It

is impossible to tell how they would have punished him if he had stolen a fine mule.

Roosevelt has been president nearly five years and not a trust criminal has been sent to prison—and none of them will be, says a leading reform journal. Not a single act has been passed to protect the farmer and the working class from extortion. He has filled the cabinet with trust hirelings and owners and appointed only corporation lawyers to judgeships. Yes, Teddy is opposed to corporations! And the people gape and look wonder-eyed for relief! This government is run for the purpose of skinning the people. It has no other purpose.

When preachers and priests play the game of Mammon, the devil rubs his hands in glee. The suicide of Rev. Simmons, at Peoria, Ill., after wrecking two banks, of which he was president, and under charges of gross immorality, shows that Christianity and business in the modern world won't mix. Simmons was a Republican politician, and, evidently, used the church as a cloak to cover his real character and hoodwink the voters.—Ex.

House bill No. 300 which is now a law makes it unlawful to present in this state any play based upon antagonism alleged to have existed between master and slave, and which is calculated to excite race prejudice. This is a good law and it should always have been a law. This will now shut out the famous abolition play, "Uncle Tom's Cabin."

Davis, the cashier of the Washington, Ind., bank who stole \$90,000 of the funds trusted to him, has just served five years in prison, and is now free. Eighteen thousand dollars a year for being a thief is a pretty good salary.

The United States troops have massacred six hundred Filipinos for wanting to run their own country. That's the way the czar does his victims, too.

To my Patrons in Powell County.

After March I will spend one-half of my time at other towns out of this county, so those having work partially finished, those who have made appointments, and to any one who wants high grade work which has proved its worth, please have it attended to at once, as after that date, I will work by previous appointment altogether, and set days to do the work.

**BEAUTIFY YOUR HOME  
WITH Kinloch PAINT**

Important Memorandum—The painter is the most important person in painting. A job well done by a good painter will be the best quality of paint, costing only \$10.00 (500 lbs. of paint) will last five years. The same paint applied by a amateur (500 lbs. of paint) will last only one year. Thus the "pay-me-now" of the good painter's job is \$15.00—the poor painter's \$25.00.

A small investment in paint adds greatly to the value and beauty of your property and makes you a "good neighbor" by making a good neighborhood. Good painting is one of the best investments and pays big returns in improved values. It's a saving, not an expense. But when you paint—buy only

**Kinloch  
HOUSE PAINT**

There's one indisputable reason why a reason every honest painter will acknowledge—"The Oil is the Life of Paint," and the sure way to get good oil is to buy it fresh and pure from the dealer's barrel, not from the ready-mixed paint can. The paint that is ready to mix with linseed oil, gallon for gallon, is KINLOCH PAINT, and we recommend its use for every good reason we know.

The winter months have given us an enormous amount of work to do. We are receiving more children now in a month than we formerly did in a year and as a rule, the children are much brighter and much better looking and easier controlled than children we formerly handled.

Will you not show your interest in this great work for humanity by giving a home to one of these little ones? Unless you have a first class home in every respect and unless you are moral and stand well in your community, do not apply, as we will, under no circumstances, place a child in a home unless it can get the very best advantages.

This is the Master's work, inasmuch as he said "Suffer little children to come unto Me and forbid them not." If you are interested in this charity, and would like to take a child, please address the Kentucky Childrens' Home Society, No 2116 Von Borries Avenue, Louisville, Ky.

### The Modern Wife and the Money Question.

Usually it is the shadow of money that brings the first partial eclipse of the honeymoon and unless the problem is rightly handled the eclipse may become total. The modern wife cannot be always asking for money and retain either her happiness or her self-respect. The husband could not keep his business going if he did not have a pay-day for his employees or if he was careless about settling his bills. He cannot expect to keep his house going without a financial arrangement that will give it regularity and security. It is passing strange that this matter should be a constant difficulty in millions of homes, but it is a hardship which wives are supposed to bear uncomplainingly. She is a wise woman who rebels early and secures her rights, for she will never be a successful wife until she has her part of the income without days of grace or discounts. This is important; it is vital. Unless it is made plain and duly fixed, all her other purposes and aspirations will be forever handicapped.—From the April Delineator.

## If You ARE A Democrat Or if You are not You will want to read Bryan's Commoner.

ON MARCH 17 The Commoner announced the Primary Pledge organization plan. This plan provides for Democrats to sign a pledge, binding themselves to attend all primaries of their party between now and the national campaign of 1908. It is a practical method for the organization of the party by the rank and file, in order that it may prove true to its name and be the efficient servant of the people in the establishment of reform. A little investigation will convince you that the Commoner has hit upon a feasible and effective method of persuading Democrats to participate in the councils of their party.

These pledges are pouring into the Commoner office by the thousands, where they are carefully filed by state, county and voting precinct.

If the same interest manifested in this work during the past four months is maintained during the next two years, the total membership will exceed four million Democratic voters.

The Commoner is issued weekly, subscription \$1 a year. By special arrangements, for a short time only, we offer the Clay City Times and The Commoner for \$1 10.

Address all orders to
